DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 286-298, drawn to a telefunctional multi-arm star copolymer, classified in class 525, subclass 242.
 - II. Claims 299-304, drawn to a vinyl acetate based block copolymer, classified in class 526, subclass 330.
 - III. Claims 305, drawn to a methacrylate based block copolymer, classified in class 526, subclass 318.
 - IV. Claims 306-313, 318-319, drawn to a generic type block copolymer, classified in class 526, subclass 348.
 - V. Claim 314, drawn to a telechelic copolymer, classified in class 524, subclass 502.
 - VI. Claims 315, 316, drawn to a generic type graft copolymer, classified in class 525, subclass 244.

Art Unit: 1713

2. The inventions are distinct, each from the other because:

The group I through VI inventions are distinct from each other because they are related to each other as different species of the same genus, genus and its species or vice versa.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Bernard G. Pike (Registration No. 46,993) on June 4, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made because applicants would like to have a written restriction sent to applicants.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
